

CIFOR at the 54th Annual Meeting of the Association for Tropical Biology and Conservation

ATBC 2017
Ecological and social dimensions of tropical biodiversity conservation

9 –14 July, 2017
Merida · Yucatan · Mexico

CIFOR invites you to its presentations at the 54th Annual Meeting of the Association for Tropical Biology and Conservation, with scientists speaking on tropical landscapes, agrarian change, deforestation and restoration, and many other topics.

Tuesday, 11 July

Agrarian Change Project Symposium

The impacts of agrarian change on local communities: Sharing experience from the field

11:00–13:00 | Yucatan 4

Does agrarian change in tropical landscapes really result in better livelihood outcomes?

Moderator: **Terry Sunderland**

Speakers:

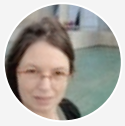

Ronju Ahammad
Presented by Terry Sunderland
Agrarian changes and rural livelihoods in an upland landscape of Bangladesh

Stephanie Tomscha
Presented by Bronwen Powell
How do ecosystem services vary in different agrarian systems? A cross-site perspective

Frédéric Baudron
Beyond the land sparing vs. land sharing framework: Views from agricultural scientists

Sarah E. Gergel
Can mapping forest loss, fragmentation, and change help improve long-term comparative analyses of livelihoods

Jean-Yves Duriaux Chavarría
Consequences of forest loss for smallholders and their response in Southern Ethiopia

Josh Van Vianen
Landscape complexity and dietary diversity: Linking deforestation and agrarian change to dietary transitions

Amy Duchelle

11:00–16:00 | Yucatan 1

Conservation and livelihood impacts of subnational REDD+ initiatives in the Brazilian Amazon

Symposium: Multiple-use forests: Can forest conservation and socio-economic development be combined?

Wednesday, 12 July

Terry Sunderland

11:00-13:00 | Yucatan 4

Have integrated landscape approaches reconciled societal and environmental issues in the tropics?

Symposium: A landscape perspective on biodiversity conservation and management in oil palm mosaics

Manuel Guariguata

11:00-16:00 | Yucatan 1

Connecting the local and the global: The role of participatory monitoring in forest restoration

Symposium: Conservation challenges in the agro-forest frontier; past present and future

17:30-19:00 | Yucatan 1 & 2

Panel Discussion: The role of tropical secondary forests in conservation and restoration

Join us at the 2017 Global Landscapes Forum: Bonn

19–20 December 2017 | World Conference Center, Bonn, Germany

With support from the German Government, the next major Global Landscapes Forum in Bonn will take the world's largest and only science-led multi-sectoral platform to the next level, producing and disseminating knowledge; building communities of practice; and accelerating action to build more resilient, climate friendly, diverse, equitable and productive landscapes.

Join an estimated 2,000 participants and a global online audience for two days of engagement, discussion, learning and innovation. Participate through Discussion Forums, Landscape Labs, Landscape Talks, Digital Summits, online competitions and more.

If you are interested in hosting or participating in any of these ways please visit **landscapes.org** or contact John Colmey at **j.colmey@cgiar.org**.

Center for International Forestry Research (CIFOR)
CIFOR advances human well-being, equity and environmental integrity by conducting innovative research, developing partners' capacity, and actively engaging in dialogue with all stakeholders to inform policies and practices that affect forests and people. CIFOR is a CGIAR Research Center, and leads the CGIAR Research Program on Forests, Trees and Agroforestry (FTA). Our headquarters are in Bogor, Indonesia, with offices in Nairobi, Kenya, Yaounde, Cameroon, and Lima, Peru.

CGIAR RESEARCH PROGRAM ON Forests, Trees and Agroforestry
