REDD+

What do we know, and what comes next? Relevant insights from the CIFOR Global Comparative Study (GCS) "REDD+ research for the tropical forests of the Asia-Pacific region"

Now that we have the Paris climate agreement, policy makers, researchers and practitioners are asking:

- What does it mean for us now?
- How do we move forward?

Join us to answer these questions from the perspective of REDD+.

Insights from CIFOR's Global Comparative Study on REDD+ and the Fiji Forestry Department will be shared, looking at lessons learned for improving the effectiveness, efficiency and equity of REDD+ benefit sharing outcomes in the Asia-Pacific region.

Case studies will include Indonesia, Fiji and Vietnam from Asia-Pacific, as well as Brazil, Cameroon, Peru and Tanzania for a global perspective.
